LIE TO ME, a story of the ultimate betrayal, hits shelves today!

Let the Lies Begin: LIE TO ME hits shelves today!

Hello, book people! The wait is finally over.

LIE TO ME comes out today!!! ☐

At heart, my new standalone LIE TO ME is a story of the ultimate betrayal. Of a marriage gone awry after the loss of a child. Two young, successful writers, Sutton and Ethan Montclair, the toast of the literary community, the perfect couple, lose their son to SIDS, and the aftermath of his death creates an untenable world for them. Unable to cope, Sutton leaves in the night, and Ethan finds a note on the counter that clearly states: *Don't look for me* .

But is this the truth, or only one part of the story?

Sutton has seemingly left without her lifelines: her phone, her computer, her wallet. Has she left on her own? Or is her disappearance the result of something more sinister? Knowing he will be fingered for hurting his wife, Ethan delays calling the police, and when he finally does, his world falls apart.

And that's as much as I can say about the story without revealing too much.

My goals with these types of stories is to take you to the very last line, to give as satisfying an ending as possible, with a few unexpected twists thrown in along the way.

If I've done my job correctly, LIE TO ME will leave you breathless and turning the pages late into the night.

You'll let me know, won't you? And if you don't like it, please, lie to me.
